

GERARD PRAISED
BY BRITONS FOR
WORK IN GERMANY

Got Better Treatment for Captured Allies There, Says Lord Cecil—But There Is Room for Improvement.

LONDON, Oct. 31.—Lord Robert Cecil, minister of war trade, announced in the House of Commons today the transfer of the responsibility for matters relating to British prisoners in enemy countries for himself to Lord Newton, under secretary for foreign affairs, expressed "in the strongest language at my command the deep debt of gratitude which, in my judgment, this country owes to Ambassador Gerard in securing better conditions for British prisoners."

Lord Robert said: "Whatever may have been true at the beginning of the war, I believe it is not longer true that British prisoners are treated worse than those of other nationalities, and this relative decency is due almost entirely to the exertions of the American embassy. At the same time I should not like to conceal from the House that conditions in some of the camps in Germany and other countries still are far from satisfactory."

For a Weak Stomach.
As a general rule all you need to do is to adopt a diet suited to your age and occupation and to keep your bowels regular. When you feel that you have eaten too much and when capitated, take one of Chamberlain's Tablets. (Advertisement)

WHY I AM FOR WILSON
By
Linda Prussing Azamar
Illinois Suffrage Leader.

To President Wilson we owe the inspiring array of regenerative and progressive laws which in the last three and a half years have placed our country in the lead of civilization. He has given us a new standard, peace with self respect. Because he is Democratic, because he is Progressive, because he is Republican, because in word and deed he strives to exemplify the fundamental principle of our government, I am for Woodrow Wilson.

WAR SUMMARY

There has been little important fighting on the European battle fields. Between Transylvania and Rumania, the opposing armies continue the fray but with little change. North and east of Campulung, the fighting goes on. Bucharest claims the capture of Mount Rosa at Bratocea and the repulse of attacks in the Dragoslave sector. Berlin claims the repulse of Rumanian attacks north of Campulung, and Bucharest says the advance in the Jiu valley is making progress.

The Rumanians have gained a victory near Szurdok Pass, a wireless message from Bucharest reports. Rumanians drove the Austro-Germans from the frontier, captured prisoners and artillery.

West of Lutsk, in Volhynia, Russians have taken Austro-German trenches south of Svinusky and repulsed counter attacks. On the Shara river, Berlin records Russian attacks were repulsed. In Galicia the Austro-Germans have checked attacks below Stanislaw and occupied Russian positions in the Narayuvka region near Halicz.

On the Anglo-French front in France and Belgium, there has been little except artillery work. The Germans shelled the British front around Ypres and south of the Ancre, the position attacked being Schwaben redoubt.

Bad weather is hampering operations in Macedonia but the Serbians, Paris announces, have been advancing in the Cerna bend, and the French have occupied a monastery west of Presba lake. Artillery combats have occupied the soldiers on the Austro-Italian front.

During October British casualties reported from all war theatres were 4,331 officers and 102,792 men, London advices today state.

Germany has directed reprisals upon Russian prisoners because of Russian non-compliance with the German demand for improved treatment of German prisoners, according to a semi-official announcement in Berlin. Certain Russian officers have been placed in camps where the discipline is especially severe.

Mrs. P. O. Stuchell Tells How She Cured Her Son of a Cold.

"When my son Ellis was sick with a cold last winter I gave him Chamberlain's Cough Remedy. It helped him at once and quickly broke up his cold," writes Mrs. P. O. Stuchell, Homer City, Pa. This remedy has been in use for many years. Its good qualities have been fully proven by many thousands of people. It is pleasant and safe to take. (Advertisement)

MELBOURNE, Australia, Nov. 1.—The anti-conscription lead in the halting on the question of compulsory military service is only slightly reduced in the latest returns.

BID ON 4 SCOUT
CRUISERS TODAY

Building of Twenty-Seven Coast Submarines Also Will Be Submitted.

(By Review Leased Wire.)
WASHINGTON, Oct. 31.—Bids will be opened at the navy department tomorrow for four scout cruisers and 27 coast type submarines, leaving only proposals for four battle cruisers to be received before construction of 1917 building program can begin. Figures for four battleships and destroyers are under consideration and awards may be made shortly.

The scout cruisers are a new type designed to make a sustained speed of 35 knots an hour. Each will be equipped with catapult device for launching aeroplanes.

The submarines will be of the same type as the present O-type of the navy with 600 tons displacement. They are intended to work close to the shore although their fuel capacity will be sufficient to permit them to cross the ocean.

Navy officials expect there might be some hesitancy among the builders in taking the contracts for the cruisers.

Each company probably would be awarded two ships. The Fore River Company of Quincy, Mass., submitted bids under various modifications and included a sliding scale to meet possible changes in the cost of labor during construction. Experts do not look favorably on this scheme. The department is anxious to get all of this year's work laid down in private yards if possible as difficulty in placing the next contracts to be authorized before March four, is anticipated. The building authorized amounts approximately to half of the three year program approved by congress.

swung into position between the dock and the Wilhelmshafen. With the company warehouses on one side, this combination successfully hides the submarine from view.

The Deutschland first attracted world-wide attention when almost at the same hour in the morning of July 9 she slipped in the Virginia Capes. Captain Koenig, who brought the vessel into New London today, also commanded her on her maiden voyage. The vessel reached her dock at Baltimore the following night. She carried a valuable cargo of dyestuffs.

The trip constituted a record voyage for a craft of the kind, approximately four thousand miles in 16 days. The sub-sea trader started on her return trip August 1 with a cargo of rubber and nickel, dodged through a cordon of hostile warships watching for her outside the three mile limit and arrived safely off Bremen after a voyage of 23 days.

Sixteen of Nineteen Who Drew Up the First Bull Moose Platform, Endorse the President's Legislation.

ELEVEN EVEN SIGN TO VOTE FOR HIM

Those Behind Him Include the Biggest Men in the Party—William Allen White and Others of Same Caliber.

(By Review Leased Wire.)
NEW YORK, Oct. 31.—Sixteen of the nineteen members of the resolutions committee of the first Progressive party convention which framed the platform of which Theodore Roosevelt was nominated in 1912, endorsed a statement issued here tonight by the Democratic national committee commending the "legislative achievements of President Wilson."

11 Urge Re-election
Eleven of the number signed the statement which also urged the reelection of the President.

Notable List
Those who signed the statement were:

John M. Parker, of Louisiana, vice presidential candidate on the present Progressive ticket; former governor Lucius C. Garvin of Rhode Island; former Governor Jos. M. Carey of Wyoming, one of the seven governors who came out for Roosevelt in 1912; Judge Albert D. Norton of Missouri, and Hugh T. Halbert of Minnesota, who were Progressive candidates for U. S. senator and governor in their states; Frank N. Howard of Vermont, M. C. Dubuca of New Mexico; James H. Ingersoll of Idaho; Arthur G. Wray of Nebraska; Clarence B. Strauss of Virginia and J. W. McCormick of Texas.

Others, who, it is announced, endorsed the statement, were:

Wm. Allen White of Kansas; Geo. B. Hynes of Delaware; Andrew J. Stone of West Virginia; Wm. R. Farrelly of Alabama and Isaac Newton Stevens of Colorado.

WHITE DENIES SIGNING
STATEMENT FOR WILSON.

KANSAS CITY, Oct. 31.—William Allen White, of Emporia, Kansas, denied tonight in a long document, according to a local newspaper, that he had endorsed the statement given out by former Progressive party leaders in New York, in which the "legislative achievements" of President Wilson were commended.

"The report that I endorsed such a statement is untrue," Mr. White was quoted as saying. "Please make it clear that the statement was shown to me and that I absolutely refused to sign it."

STEVENS EXPLAINS HIS SIDE
DENVER, Oct. 31.—Isaac N. Stevens tonight announced that he had sent the following telegram to the publicity department of the Republican national committee:

"As a member of the resolutions committee of the national Progressive committee of 1912, I signed a statement giving credit to the present administration for enacting many of its planks into law. I never endorsed the present administration otherwise and I am supporting, and intend voting, for Mr. Hughes."

POINTED COLLAR
IN STYLE AGAIN

FEW FOLKS HAVE
GRAY HAIR NOW

Well-known local druggist says everybody is using old-time recipe of Sage Tea and Sulphur.

Hair that loses its color and lustre, or when it fades, turns gray, dull and lifeless, is caused by a lack of sulphur in the hair. Our grandmother made up a mixture of Sage Tea and Sulphur to keep her locks dark and beautiful, and thousands of women and men who value that even color, that beautiful dark shade of hair which is so attractive, use only this old-time recipe.

Nowadays we get this famous mixture improved by the addition of other ingredients by asking at any drug store for a 50-cent bottle of "Wyeth's Sage and Sulphur Compound," which darkens the hair so naturally, so evenly, that nobody can possibly tell it has been applied. You just dampen a sponge or soft brush with it and draw this through your hair, taking one small strand at a time. By morning the gray hair disappears; but what delights the ladies with Wyeth's Sage and Sulphur Compound, is that, besides beautifully darkening the hair after a few applications, it also brings back the gloss and lustre and gives it an appearance of abundance.

Wyeth's Sage and Sulphur Compound is a delightful toilet requisite to impart color and a youthful appearance to the hair. It is not intended for the cure, mitigation or prevention of disease. (Advertisement)

NEW COMET DISCOVERED.
SALEM, Ore., Oct. 31.—A large comet believed to be uncharted, was discovered here today by I. L. McAdams.

GIRLS! GIRLS! TRY IT!
STOP DANDRUFF AND
BEAUTIFY YOUR HAIR

Hair stops falling out and gets thick, wavy, strong and beautiful.

Your hair becomes light, wavy, fluffy, abundant and appears as soft, lustrous and beautiful as a young girl's after a "Danderrine hair cleanse." Just try this—moisten a cloth with a little Danderrine and carefully draw it through your hair, taking one small strand at a time. This will cleanse the hair of dust, dirt and excessive oil and in just a few moments you have doubled the beauty of your hair.

Besides beautifying the hair at once, Danderrine dissolves every particle of dandruff; cleanses, purifies and invigorates the scalp, forever stopping itching and falling hair.

But what will please you most will be after a few weeks' use when you will actually see new hair—fine and lustrous at first—yet—really new hair growing all over your scalp. If you care for pretty, soft hair and lots of it surely get a 25-cent bottle of Danderrine from any drug store or toilet counter, and just try it. (Advertisement)

DRINK A GLASS
OF REAL HOT WATER
BEFORE BREAKFAST.

Says we will both look and feel clean, sweet and fresh and avoid illness.

Sanitary science has of late made rapid strides with results that are of untold blessing to humanity. The latest application of its untiring research is the recommendation that it is as necessary to attend to internal sanitation of the drainage system of the human body as it is to the drains of the house.

Those of us who are accustomed to feel dull and heavy when we arise, splitting headache, stuffy from a cold, foul tongue, nasty breath, acid stomach, can, instead, feel as fresh as a daisy by opening the sluices of the system each morning and flushing out the whole of the internal poisonous stagnant matter.

Everyone, whether ailing, sick or well, should, each morning before breakfast, drink a glass of real hot water with a teaspoonful of limestone phosphate in it to wash from the stomach, liver and bowels the previous day's indigestible waste, sour bile and poisonous toxins; thus cleansing, sweetening and purifying the entire alimentary canal before putting more food into the stomach. The action of hot water and limestone phosphate on an empty stomach is wonderfully invigorating. It cleans out all the sour fermentations, gases, waste and acidity and gives out a splendid appetite for breakfast. While you are enjoying your breakfast the phosphated hot water is quietly extracting a large volume of water from the blood and getting ready for a thorough flushing of all the inside organs.

The millions of people who are bothered with constipation, bilious spells, stomach trouble, rheumatic stiffness; others who have sallow skins, blood disorders and sickly complexions are urged to get a quarter pound of limestone phosphate from the drug store. This will cost very little, but is sufficient to make anyone a pronounced crank on the subject of internal sanitation. (Advertisement)
